

Instructions for Lined Pouch A

READ ALL GENERAL INSTRUCTIONS BEFOR COMMENCING -
PHOTO 10

Width = 52cm

Length = 44cm

1. Double over polar fleece and cut 1 pattern - cut slightly curved corners at the bottom (fold at bottom also)
2. Double over cotton material and cut 1 pattern - cut slightly curved corners at the bottom (fold at bottom also)
3. Leave each one folded and sew the 2 side seams - NO seams on bottom of bags (as it rubs the animals)
4. Turn the material pouch inside out so the seams are on the inside
5. Leave the polar fleece bag with seams on the outside and place it inside the material pouch with the seams all matching up
6. Match the top edge all the way around and then turn 5cm of both fabrics together to the outside over the material (this will have 5cm of the polar fleece showing). Zig zag this turnover all the way around the opening.

Instructions for Lined Pouch A cont.

- Materials to be used (and only these are appropriate) -
 - Cotton material (quick drying materials) on the outside
 - New Polar Fleece (must not have pills) on the inside
- All material must be washed in a water only before being delivered to the shelter - no harsh powders etc to be used. (Materials must be free from harsh dyes and are not permitted to be washed with fabric softener as these both kill wildlife).
- As per each pouch instructions, there should not be any seams on the inside of any of the pouches as they rub on the animals.
- PLEASE DO NOT LEAVE ANY LOOSE THREADS THAT THE ANIMALS CAN SUCK ON
